SUMMARY

Data Analyst with **3+ years** of experience transforming complex data into actionable insights and operational improvements in fast-paced enterprise environments. Skilled in **SQL, Python, Power BI, Tableau**, and **statistical analysis** to develop **KPI dashboards**, automate reporting, and support data-driven decisions. Experienced in trend analysis, forecasting, A/B testing, data validation, and stakeholder collaboration to improve reporting accuracy, efficiency, and business outcomes. Adept at communicating analytical findings through data storytelling and interactive visualizations.

SKILLS

- **Data Analysis & Programming:** SQL, Python, Pandas, NumPy, Statistical Analysis, Data Cleaning, Data Validation, Exploratory Data Analysis (EDA)
- **Data Visualization & BI:** Power BI, DAX, Data Modeling, Tableau, KPI Reporting
- **Databases:** MySQL, PostgreSQL, Microsoft SQL Server
- **Business & Analytical Skills:** Trend Analysis, Hypothesis Testing, Regression Analysis, A/B Testing, Forecasting, Descriptive Statistics, Business Insights Generation
- **Tools & Platforms:** Microsoft Excel, Git, AWS
- **Soft Skills:** Stakeholder Communication, Business Requirements Gathering, Cross-functional Collaboration, Presentation & Documentation

EXPERIENCE

Principal Financial Group

USA

Data Analyst

Jun 2025 – Present

- Developed **Power BI** and **Tableau** dashboards for retirement and investment operations reporting, **reducing manual reporting effort by 35%** and improving weekly KPI visibility for business stakeholders.
- Analyzed customer account and transactional datasets using **SQL, Python, Pandas, and statistical** techniques to identify reporting inconsistencies, **improving data validation accuracy by 22%** across financial reporting workflows.
- Automated data preparation, validation, and reporting workflows using **Power Query, PostgreSQL, and Excel**, **reducing monthly reporting turnaround time by 30%** for compliance and operations teams.
- Performed trend analysis, regression analysis, and forecasting on customer service and operational metrics, enabling leadership teams to identify process bottlenecks and improve reporting efficiency during quarterly planning cycles.
- Collaborated with analysts, operations managers, and reporting teams to gather business requirements and standardize KPI definitions across multiple reporting dashboards, **improving cross-functional reporting consistency and stakeholder alignment**.

J.P. Morgan & Co

India

Data Analyst

Mar 2022 – Jul 2024

- **Designed interactive Power BI dashboards** using **DAX and advanced data modeling** to monitor banking operations and customer performance metrics, helping leadership **reduce reporting review time by 28%**.
- Created scalable **Excel** and **Power Query** reporting solutions integrating data from SQL Server and MySQL sources, improving reporting reliability and reducing manual reconciliation efforts across business teams.
- Conducted exploratory data analysis (EDA), A/B testing, and descriptive statistical analysis on customer engagement and transaction datasets to support data-backed business decisions and operational strategy initiatives.
- **Optimized complex SQL queries and automated recurring analytical reports** using **Python** and **AWS Athena**, **improving data retrieval performance by 32%** for operational analytics workflows.
- Led coordination with cross-functional stakeholders, business users, and reporting teams to translate analytical requirements into actionable dashboards and presentations, **improving adoption of self-service reporting tools** across departments.

Certifications

- AWS Certified Cloud Practitioner (CLF-C02) — [Badge](#)

EDUCATION

University of Houston

USA

Master of Science in Engineering Data Science

Aug 2024 – May 2026
